FROM: John Vakoutis, Unit#701
RE: Profile and Qualifications for Board of Directors Position

GENERAL PROFILE: Born and raised in Baltimore, I left the city in 1986 to pursue a business career which culminated in my appointment as president and CEO of Curative Health Services, a publically-owned healthcare services company on Long Island in New York where I worked until 2002. After several years of consulting for other businesses in California and Colorado, I chose to return "home" in 2010. My wife, Betsy, and I are delighted to be living in our beautiful apartment in Belt's Landing.

EDUCATION:

High School: Baltimore City College, class of 1965

College: University of Maryland, School of Pharmacy, BS degree, 1972

Graduate: Loyola University, School of Management, MBA degree, 1982

PAST BOARD AFFILIATIONS:

- Curative Health Services – Public Company
- Critical Care America – Public Company
- Accordant Health Services – Private Company
- Can Do Healthcare – Private Company
- Long Island Association

CURRENT BOARD AFFILIATIONS:

Nassau Square Cooperative Apartments, Inc. – For the past five years I have served as President of the Board of Directors of this residential building located in Palm Beach, Florida. During this time I have had oversight of the building's operating budget, as well as the building's improvement and general maintenance initiatives. I have been credited for enhancing the value of this building as a result of these initiatives while, at the same time, keeping the association's operating budget the same for five years running.

PERSONAL:

My wife and I have five children and three grandchildren between us. Our interests include golf, sailing, travel, and the arts. We are great supporters of Baltimore's cultural venues.

Commitment to Belt's Landing Association Members:

To use my extensive business skills and broad experience as a board of director's member to help keep our building in top condition, thereby enhancing its value, within the parameters of a fiscally conservative budget.
